Central Vermont Habitat for Humanity®

Application
Volunteer Construction Supervisor

Name _____ Date _____
Phone _____ Email _____

1. Please describe your background in residential construction, including skills utilized in this experience.

2. Please describe your experience and foresight with creating and adhering to a construction budget, planning for work days, and troubleshooting.

3. Habitat for Humanity International requires, as of July 2018, that an OSHA certified Competent Person is on the active work site. Are you OSHA certified, and if not, are you willing to participate in a two day training this spring to become certified, paid for by CVHFH, Inc.?

4. A Habitat for Humanity Construction Site Supervisor has a unique role as they hold a training session at the start of every work day for the volunteers. Throughout the work day, they monitor for competency and safety, regrouping as necessary. Please describe any experience you have had with training and leading a group.

5. Please provide the name and contact information for three references.

Please email or mail this application to the address below by March 30, 2018
